

Team Capacity:

DeWitt Colvin: 10 hours

- Base Capacity: 15 hours
- Out of town event, can't miss: -5 hours

Shishir Shrestha: 8 hrs

- Base Capacity: 8hrs

Liam Kressin: 8 hour

- Base Capacity: 10 hrs
- Classwork: -2 hours

Sprint Goal:

We want to integrate with picobytes main. Make the service deployable on a server for remote testing. See if we can break the containers in kubernetes and have still dump the log file so the code that breaks it can be seen.
