Team Capacity:

DeWitt Colvin: 8 hours
- Initial capacity: 14 hrs
- -6 for other classes

Liam Kressin:
- Initial Capacity: 12 hours
- -4 from other classes

Shishir Shrestha: 8 hours
- Initial Capacity: 8 hrs

Sprint Goal:

Create a program that takes an input text file, sends the input to a container, does something with that input and sends information back to the user.

Planned User Stories:

US1 - Submit code
US14 - Make Sandbox
US3 - Execute in Sandbox
US7 - Compile and execute
US11 - Return to User
